BEAUTY

Anche piccoli gesti possono fare la differenza!

È così che nel 2017 abbiamo scelto di avviare una collaborazione con TREEDOM piantando 100 alberi ad HAITI, territorio ancora oggi tra i più poveri del mondo, scosso dall'emergenza ambientale, dalla deforestazione selvaggia e dal degrado idrogeologico. Il progetto di riforestazione ha tra i suoi obiettivi principali quello di compensare le emissioni di CO₂, ridurre l'erosione del suolo, restaurare la stabilità idrogeologica, creare nuove aree boschive e agricole che proteggano la biodiversità territoriale e che migliorino la qualità di vita delle popolazioni locali.

Scegliere un prodotto NOOK, significa partecipare alla crescita e allo sviluppo della foresta

Eco-Inspired Beauty Forest

significa prendersi cura non solo della propria bellezza, ma della bellezza della natura e del pianeta.

Even small gestures can make a difference!

So, in 2017 we decided to start a collaboration with TREEDOM by planting 100 trees in HAITI, a territory that is still among the poorest in the world, shaken by the environmental emergency, wild deforestation and hydrogeological degradation. The reforestation project has, among its main objectives, to offset CO₂ emissions, reduce soil erosion, restore hydrogeological stability, create new wooded and agricultural areas that protect territorial biodiversity and improve the quality of life of local populations. Choosing a NOOK product means participating in the growth and development of the forest

Eco-Inspired Beauty Forest

it means taking care not only of one's own beauty, but of the beauty of nature and the planet.

We're Feeling Eco-Inspired.
